

2018 Lee Teng Undergraduate Internship in Accelerator Science & Engineering May 29 - August 10, 2018

The Lee Teng Internship is an 11-week summer program at the Fermi National Accelerator Laboratory or Argonne National Laboratory, both near Chicago, IL, open to select students from U.S. universities who have just completed their junior year* in physics, engineering, or computer science. Scholars will receive generous stipends, as well as travel and lodging allowances and a full scholarship to attend the two week U.S. Particle Accelerator School, which will be held in East Lansing, MI, sponsored by Michigan State University. *Outstanding sophomores may also be considered.

APPLICATION DEADLINE: JANUARY 22, 2018
